Note

The fuel filter is especially provided with an integrated damper for silencing. To prevent contact corrosion, the fuel filter is provided with a plastic sleeve.

When exchanging fuel filter, make sure that the plastic sleeve is installed between fuel filter and mounting bracket. Also make sure that sleeve projects on both sides of bracket, since direct contact of fuel filter with bracket may result in contact corrosion.

- 1 Unscrew protective case.
- 2 Pinch fuel suction hose (1) with a clamp.

- 3 Unscrew fuel line and fuel hose from fuel filter.
